

Talking Newspaper AGM Chief Engineer's Report

(28-Aug-20)

The impact of COVID-19 has meant that we have had to make significant changes to the running of the Talking Newspaper.

Luckily, we successfully moved our duplication equipment back into its usual location at St Marks church in February, without any impact to the weekly or monthly recordings, just ahead of the COVID-19 lockdown coming into force.

I would like to take this opportunity to thank everyone involved in running the Talking Newspaper for their help and assistance during these unprecedented times and the necessary changes involved.

For the record we are now in our 8th year of producing the weekly and monthly recordings on digital USB thumb drives.

I am pleased to be able to report that it hasn't been necessary to replace any of the recording, or duplication equipment during the year.

Lastly, I wish that all listeners and volunteers are staying safe and well.

Andrew Hill
Chief Engineer
